

M MILE HI A ANGUS W

2023 BULLS

**PRIVATE TREATY SALE
MARCH 11TH, 2023**

Hello All,

We would like to invite you to look at our 2023 bull offering at the ranch on March 11th. We know everyone is busy in the spring, so feel free, if you can't make it, to contact us and set up a time that works for you. Please contact us with any questions you have. All the bulls have videos on YouTube at Malcolm Mile Hi Ranch (@malcolmranch). A big thank you to all who have made this possible.

All the bulls were weaned on September 9, 2022, have been fertility tested, and have been blood typed. With rising production costs, efficient cattle are more important than ever. We believe that our bulls will meet your efficiency standards and will excel in any environment.

We strive to put together a solid herd based on tested and proven genetics. Our foundation donors excel in fertility, longevity, and productivity. Combining those traits with some exciting sires, we are sure our bulls will meet the rigorous standards of your working cow herd. We back every bull 100%. We look forward to serving you.

Thank you again,
Malcolm Mile Hi Ranch

Delivery

Free delivery of bulls for up to 200 miles, anything beyond at cost.

Retained Interest

We reserve the right to retain 1/3 semen interest on any bull selling

Terms & Conditions

All registered cattle sell fully guaranteed under the standard terms and conditions of the American Angus Association

Health

All cattle are vaccinated for Blackleg, 8-Way, IBR, PI3, BVD, and treated for external parasites. All bulls have been fertility tested and scrotal measured

Breeding Guarantee

Malcolm Mile Hi Ranch guarantees a first-year breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. 75% of the value will be replaced either in credit or in a replacement bull. All injured bulls must be diagnosed by a veterinarian. All claims must be made by September 15, 2023

Notes

The dam of this bull, Coleman Donna 1270, is personally one of our favorites, she places in the top 1% of proven dams for \$W and records and WR 3@113 and a YR 2@114. He is sired by the high seller in the 2017 Hilltop Angus sale, Hilltop Edge 3747. MH Edge 2017 carries the muscle, fleshing ability, and structural correctness characteristic of his dam and the deep body, soundness, and eye appeal characteristic of his sire. This bull is the complete package and has been a standout since the beginning. We will definitely be revisiting this mating in the future.

Notes

A unique bull out of a newer addition to our donor lineup, Hilltop Cinderella 39. This bull is built right, thick from top to bottom, and can really get out and move. His dam, Hilltop Cinderella 39, boasts a WR of 4@106 and a BR of 4@97. His sire, Coleman Bravo 6313, has seen heavy use in our program and we couldn't be happier with how his progeny have matured.

Notes

Another group of flush brothers. These two are a fantastic mix between Coleman Donna 4108 and Square B Atlantis 8060. 4108, as one of the highest producers in our program we have seen a lot of progeny out of her and she never fails to produce a quality calf. We are very excited about the female potential of these two flush brothers. These two combine the depth, thickness, and style of their sire and the super conformation, maternal potential, and adaptability of their dam in a neat package.

Notes

A long-sided, longer-spined heifer bull prospect out of Reid's 4-H heifer Belle. This guy's pedigree is loaded with some great, proven cows such as K905, 714, 2198, T515. We have seen the Strikeforce calves have added thickness down their tops and extra carcass merit and 2013 is no exception. Talk about a bull that is easy to work with and has a super disposition.

MH Oracle 867

Birth Date: 12/24/2021

Notes

This is a product of our first foray into the Simmental/Angus crosses and we couldn't be happier with the result. This guy is flat stout with some great bone. He is sired by Oracle - the Simmental standout from ST Genetics. Big rib, docile, easy fleshing, and mobile describe this stud.
